

For Immediate Release:

Bed Bug 911 All-Natural Products Now Available at USBedBugs.com

*Revolutionary New Products
Created by New York's Top Extermination Company to
Treat Bed Bug Infestations is Now Available at USBedBugs.com*

Northbrook, IL (October 18, 2011) – USBedBugs.com, the leading provider of pesticide-free bed bug prevention and protection products, announced that Bed Bug 911 Exterminator spray and laundry treatment are now available at USBedBugs.com.

Bed Bugs are back and here to stay. According to the 2011 Bugs without Borders Survey conducted by the NPMA, the tiny critters have been spotted by 99% of all pest management professionals over the past twelve months- up 4% from 2010. Bed bugs don't discriminate and can be found just about everywhere. The blood suckers have been spotted in hotels, college dorms, nursing homes, movie theaters and even libraries. Now, Bed Bug 911 Exterminator all-natural spray and laundry treatment can stop bed bugs in their tracks.

"We are very pleased to be offering Bed Bug 911 all-natural pesticide-free products," said Adam Greenberg, President of USBedBugs.com. "Bed bugs can have a truly debilitating effect on people's physical and emotional well-being, and they are unfortunately a problem that continues to spread. At USBedBugs.com we are constantly adding high quality products like Bed Bug 911 and we are committed to offering products to address the growing epidemic."

Bed Bug 911 Exterminator is an EPA exempt bed bug spray that is scientifically proven to effectively eradicate bed bugs, dust mites, fleas, and many other insects on contact. "The product's ingredients attack and destroy the bug's exoskeleton offering a lethal solution without toxic pesticides," said Bo Valdes, Director of Business Development at Bed Bug 911. "One concern consumers have surrounding the all-natural contact killers is the oily residual they leave behind. Bed Bug 911 Exterminator is oil-free and can be applied to luggage, clothing, bedding, furniture and flooring without fear of staining." Bed Bug 911 Exterminator is odor-free and may be sprayed indoors. Also available at USBedBugs.com is Bed Bug 911 Natural Enzyme Laundry Treatment which kills bed bugs in the wash and will not leave an odor or stain.

USBedBugs.com offers a fast growing assortment of pesticide-free products to provide peace of mind to those trying to avoid bed bugs as well as those currently battling bed bugs in their home or business. Bed Bug 911 Exterminator unscented natural bed bug spray is available at USBedBugs.com in 1oz, 3oz, 8oz, 24oz and gallon sizes and retails from \$3.95 to \$69.95. Bed Bug 911 Bed Bug & Dust Mite Exterminator Enzyme Laundry Treatment comes in a 32oz bottle and retails for \$23.95.

About Bed Bug 911

Bed Bug 911 is a full service extermination company and bed bug product manufacturer headquartered in New York, NY. A subsidiary of Home Clean Home, Inc., a full service contract maintenance firm, Bed Bug 911 was founded in the wake of a bed bug epidemic that erupted, bringing with it a state of panic. After witnessing the side effects of the harsh and ineffective pesticides on the market, Bed Bug 911 commissioned a world class team of entomologists and pest control experts to develop a safe and effective bed bug spray to equip their extermination and bed bug cleaning teams. Born from this effort was the Bed Bug 911 Exterminator product line. Offering bed bug preparation services, pest extermination and all natural bed bug products, the company now provides a "one-stop-shop" with every effective product and service necessary to permanently eradicate bed bugs. About USBedBugs.com

At USBedBugs.com, our mission is to improve the quality of life for those dealing with bed bugs and to prevent further spread of bed bugs throughout the United States while minimizing use of harmful pesticides.

Founded in 2006, USBedBugs.com is a division of NorthShore Care Supply, an online medical supply retailer. Beginning with selling mattress encasements, the company received numerous inquiries from people desperately looking for additional products to detect and prevent bed bugs. As the bed bug infestation in the U.S. has grown rapidly, the company has become the leader in products for dealing with bed bugs in homes, hotels, apartment buildings, colleges and any facility where people sleep. The USBedBugs.com website is now a fast growing marketplace featuring a wide selection of pesticide-free bed bug prevention and protection products. For more information, visit www.usbedbugs.com.
