

USBedBugs.com™ Platinum Sponsor for 2011 North American Bed Bug Summit - Event Features Speaking Session with United States Representative Robert J. Dold

Maker of Innovative BugZip® Clothing Travel Protectors to Launch New Bed Bug Products-Summit Brings Together Leading Bed Bug Management and Pest Control Companies

Northbrook, IL ([PRWEB](#)) September 19, 2011 -- USBedBugs.com, the leading provider of pesticide-free bed bug prevention and protection products, announced today it is the sole platinum-level sponsor of the 2011 [North American Bed Bug Summit](#). The event is being held September 25th through the 27th at the Hyatt Regency O'Hare hotel in Chicago. USBedBugs.com will occupy Booth #67 on the EXPOCentral floor and host Beer Tasting Reception.

The three-day event brings together the top bed bug elimination and management companies throughout the country and offers a chance for networking and discussion of best practices. Speaking sessions will be conducted by several prominent entomologists and other experts who will discuss the science of fumigation, the role of canines in pest detection, and the efficacy of heat-based treatments, among many other topics. In addition, United States Representative Robert J. Dold of Illinois will deliver a speech describing the federal involvement in bed bug issues and the potential impact of legislation for pest management companies.

“We are very pleased to once again be the platinum sponsor of the North American Bed Bug Summit,” said Adam Greenberg, President of USBedBugs .com. “Bed bugs can have a truly debilitating effect on people’s physical and emotional well-being, and they are unfortunately a problem that continues to spread. Events such as the North American Bed Bug Summit allow all of us in the industry to get together and discuss ways to best eliminate the persistent threat of bed bugs so we can provide much needed relief to both afflicted businesses and individuals suffering in the home.”

The North American Bed Bug Summit is produced by the industry group Bed Bug University. For more information about USBedBugs.com’s participation in the event, visit www.usbedbugs.com.

USBedBugs.com offers a fast growing assortment of pesticide-free products to provide peace of mind to those trying to avoid being bitten by bed bugs as well as those currently battling bed bugs in their home or business. It offers the innovative BugZip® luggage and clothing encasement products which are specially designed with three-sided zippers to deny entry to bed bugs. “We are excited to launch at the Summit a variety of new products for bed bugs including steamers, vacuums, mattress bags and home monitors,” said Greenberg. “We are rapidly adding new products for both consumers and pest control professionals to address the growing epidemic.”

About USBedBugs.com

At USBedBugs.com, our mission is to improve the quality of life for those dealing with bed bugs and to prevent further spread of bed bugs throughout the United States while minimizing use of harmful pesticides.

Founded in 2006, USBedBugs.com is a division of NorthShore Care Supply, an online medical supply retailer. Beginning with selling mattress encasements, the company received numerous inquiries from people

desperately looking for other products to detect and prevent bed bugs. As the bed bug infestation in the U.S. has grown rapidly, the company has become the leader in products for dealing with bed bugs in homes, hotels, apartment buildings, colleges and any facility where people sleep. The USBedBugs.com website is now a fast growing marketplace featuring a wide selection of pesticide-free bed bug prevention and protection products. For more information, visit www.usbedbugs.com.
